

# Industrial enameling

*Benefit from our know-how & experience*

## Specialized services & supplies for the porcelain enameling industry

DTC provide worldwide process & equipment know-how, independent advice and hands-on support based on 30+ years experience within the vitreous enameling industry.

### SERVICES :

- **Independent advice**
- **Hands-on support**
- **Training**

Porcelain enameling provide a high quality coating with unique functional & esthetic properties.

However, the variety of available processes and product design requirements may be overwhelming.

### Setting-up new plants

Most companies have no experience with setting up industrial porcelain enameling plants or lacking the required in-house capacity.

### SUPPLIES :

- **Small equipment**
- **Process & quality control instruments**
- **Spare parts**

DTC may provide assistance from project inception upto commissioning.

Our services include :

- Product design review
- Process evaluation & selection
- Equipment sizing & optimizing

plant lay-out.

- Feasibility studies c/w total cost of ownership calculations
- Project management
- Setting-up QA/QC system
- Staff training

See [www.ditmer.nl](http://www.ditmer.nl) for more details.

### eLearning

DTC has developed online courses to provide basic training for new employees at your enameling plant.

See [www.e-nameling.com](http://www.e-nameling.com) for more details.

Company specific trainings may be developed upon request.

**Implementing  
enameling  
plant projects  
on time and  
within budget  
& specification**

**Reducing enameling cost**

Many companies face strong international competition and need to reduce their operating cost.

DTC may audit your enameling plant processes & equipment and provide independent advice about possible improvements, such as :

- Simplifying processes
- Improving material flow
- Optimizing equipment performance
- Reducing energy consumption
- Reducing rework & waste

**Sourcing spare parts**

Thanks to intimate knowledge of enameling plants previously supplied by :

- Ferro (Holland) BV
- Smit Ovens BV
- Smit Sinus Enamelling BV
- Alliance Enamel Engineering
- Allied Enamel Supplies

DTC may assist you with sourcing critical spare parts for such equipment.
